

**ALCANZADOR
MINI SPIDER BOOM
ON TROLLEY**

ALZ
Series
ALZ 07
ALZ 09

Lighter and more practical; can be positioned anywhere

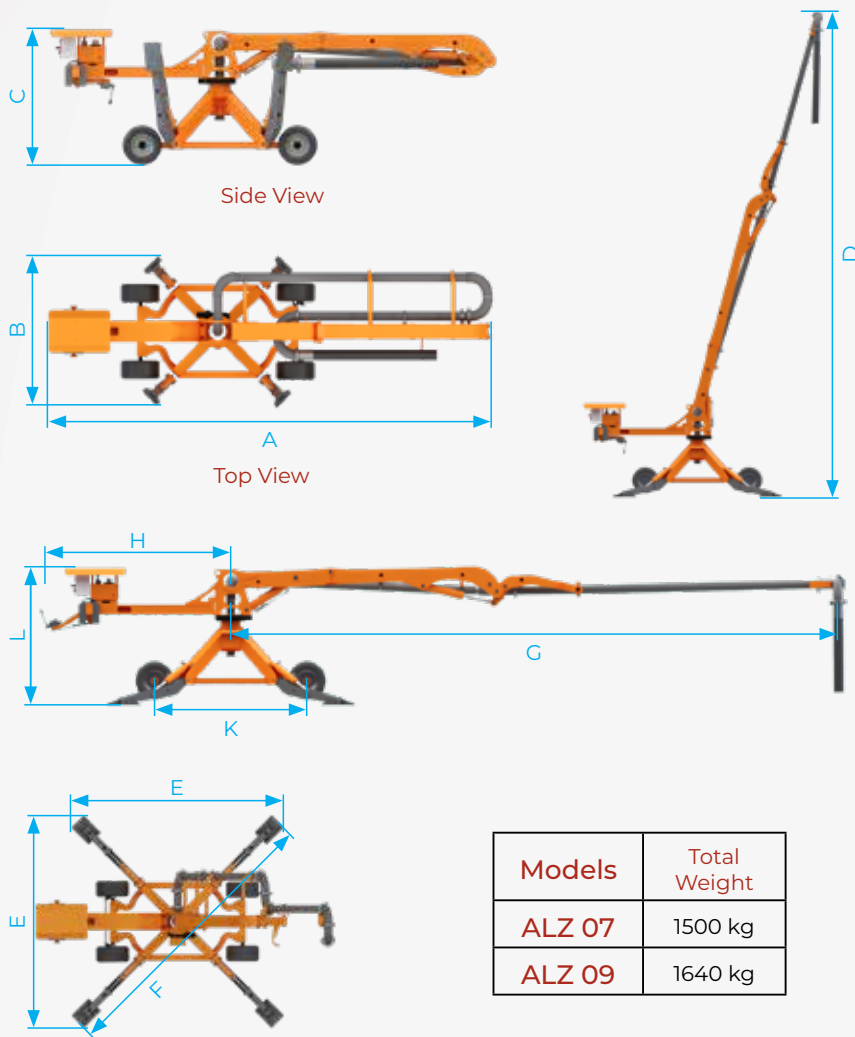

- Alcanzador can be easily transported thanks to its modular structure.
- It is light, and can be positioned very practically with its 4-wheel chassis and towbar.
- Hydraulic lifting and closing legs help to reposition quickly without interrupting the concrete placing.
- High maneuverability with the steering system integrated into the drawbars
- All functions such as slew turning, boom lifting/lowering, lifting and lowering the opening legs are hydraulic
- There are three different power options as
 - electric ■ gasoline ■ diesel
- In addition to the power options, a manual hydraulic pump is also standard on the machine as backup or additional power option.
- With its distinct structure, it is unrivaled for concrete distribution on construction sites, especially for points that are difficult to access.
- Provides cost savings in concrete placing works.
